PROFESSIONAL SUMMARY

Data Analyst with hands-on internship experience in Power BI and SQL, focused on transforming complex datasets into actionable business insights. Proven ability to automate reporting processes and deliver data-driven recommendations that improve operational efficiency. Passionate about leveraging statistical modeling to solve real-world challenges.

WORK EXPERIENCE

MIS Executive Apr 2026 – Present

Nitro Commerce

- Coordinated recurring business meetings with marketing, sales, and operations stakeholders to align on KPI tracking and process improvements.
- Designed and maintained interactive Power BI dashboards consolidating sales, inventory, and ad-campaign data for real-time, data-driven decision-making.
- Wrote and optimized SQL queries to extract, clean, and validate large operational datasets for daily and weekly MIS reports.
- Automated recurring Excel-based MIS reports using pivot tables, XLOOKUP, and macros, cutting manual reporting turnaround time by 30%.
- Monitored and analyzed digital ad campaign performance across Taboola, Google Ads, and Snapchat Ads, tracking spend, CTR, and ROAS to optimize ads operations.

Data Analytics Intern Sept 2025 – Mar 2026

Defence Research and Development Organisation (DRDO)

- Cleaned and Preprocessed over 5 Million records from relational databases using Python, Pandas, Delivery high quality, structure datasets optimised for high performance LLM training pipelines.
- Transform cleaned datasets into template and CSV formats, Facilitating injection into vector databases for optimised semantic search capabilities.
- Fine tuned LLMs on curated datasets, improving accuracy in tech generations, information extraction and semantic search applications.

Data Analytics Intern Jun 2025 – Aug 2025

Chiacon Consulting

- Designed and implemented interactive Power BI dashboards, significantly reducing manual reporting time and providing real-time insights to stakeholders.
- Cleaned and transformed large unstructured datasets using Power Query and SQL, ensuring data accuracy for quarterly performance reviews.
- Collaborated with cross-functional teams to translate business requirements into technical data solutions, successfully delivering 18 assignments.

PROJECTS

OLA Ride Prediction & Insights Dashboard — Power BI, Excel Sept 2025

- Engineered a multi-page Power BI report analyzing 100,000+ ride bookings, tracking KPIs across revenue, vehicle performance, and customer behavior.
- Transformed 100K+ rows of raw transport data into actionable insights, optimizing \$27M in revenue and analyzing a 62% booking success rate for fleet management.

End-to-End India Job Market Analysis (2026) — Python (Pandas), MySQL, Power BI (DAX) Jan 2026

- Built an automated ETL pipeline in Python to clean, transform, and load raw job market data into a MySQL database.
- Developed a market intelligence tool using Python, SQL, and Power BI that identified Python as a key salary driver in the 2026 Indian job market.

Raahgir Travels — HTML, CSS, JavaScript, Tailwind, React Jun 2024

- Built a responsive travel website using React and modern CSS, focusing on smooth navigation, mobile-friendly layouts, and visual hierarchy.
- Created interactive UI components including image carousels, scrolling cards, and a live chat feature to enhance user experience.

TECHNICAL SKILLS

Data Analysis, Data Cleaning, Data Visualisation, Statistical Analysis

Languages & Libraries: Python, Pandas, NumPy, HTML, CSS

Database: MySQL

Data Visualization: Power BI (DAX, Power Query)

Tools: Visual Studio Code, Excel

EDUCATION

Bachelor of Computer Applications (B.C.A.) Jul 2022 – Jun 2025

Maharshi Dayanand University, Rohtak

CERTIFICATIONS

- Introduction to Data Science — Cisco (2026)
- Introduction to Data Analysis Using Microsoft Excel — Coursera (2026)
- TechSprint Hackathon — GDG on Campus, MSCW (2026)
