PROFESSIONAL SUMMARY

Data Analyst with 3 internships in analytics, MIS and ad operations. Skilled in SQL, Power BI (DAX), Python and dashboarding. Cleaned 150,000+ records for model training and built dashboards tracking Rs 93L in ad spend and Rs 1.47Cr in revenue.

SKILLS

- **Core:** Data Analysis, Data Cleaning & Transformation, Data Visualization, Statistical Analysis, ETL, MIS Reporting, Funnel & User Segmentation, Campaign Attribution, Latency Benchmarking
- **Languages:** SQL, Python, DAX, M (Power Query), Google Apps Script, HTML, CSS, JavaScript
- **Tools:** Power BI, Pandas, NumPy, Matplotlib, OpenCV, SQL Server, MySQL, Excel, Google Sheets, Azure Data Factory, Azure Key Vault, Azure Storage, Git & GitHub, AppsFlyer
- **AdTech Metrics:** ROAS, CTR, CPC, CPM, UTM Tracking

EXPERIENCE

MIS Executive Intern | Nitro Commerce | Apr 2026 – Sep 2026

- Built live Power BI dashboards (DAX) tracking spend, revenue, margin and ROAS by month, brand and channel, covering Rs 93L spend, Rs 1.47Cr revenue and 1.58 ROAS over 4 months.
- Managed daily performance reporting in Google Sheets across 11 ad platforms and partner inventories (Taboola, Snapchat, GPay, Zomato, Paytm, Jio, MobiKwik and others) for 90+ brand campaigns, tracking CTR, CPC, CPM and ROAS.
- Developed Google Sheets and Apps Script workflows integrated with Nitro X to segment anonymous visitors into Cold, Warm, Heat and Hot funnel stages for client delivery.
- Launched 150+ brand coupon campaigns with UTM tagging, CDN asset handling, priority setting and collection mapping.
- Attended 35+ client and internal meetings on budget allocation and ROAS optimization.

Intern (Data, AI & Web) | Defence Research and Development Organisation (DRDO) | Oct 2025 – Mar 2026

- Cleaned and structured a dataset of 150,000+ images with Python (Pandas, NumPy): removed duplicates, filtered low-quality images, resized, labelled and tracked metadata in tables to prepare deep learning training data.
- Optimized the inference pipeline of an open-source deep learning model, cutting latency from 1.6s to 0.3s per frame (81% faster).
- Trained and optimized a voice model, reducing its response latency.
- Researched and implemented routing for wireless mobile (Android) networks.

Data Analytics Intern | Chiacon Consulting | Jun 2025 – Aug 2025

- Designed interactive Power BI dashboards for client reporting, using DAX measures and data modeling.
- Wrote SQL queries (DDL/DML, joins, CTEs, stored procedures, views, ranking functions) and transformed raw datasets with Power Query (M) for quarterly performance reviews.
- Completed 18 assignments, working with cross-functional teams to turn business requirements into data solutions.

PROJECTS

Ola Rides Data Analysis & Power BI Dashboard | SQL, Power BI | [View Project](#)

- Analyzed ride transaction data in SQL to evaluate booking status, cancellation reasons, revenue trends and vehicle performance.
- Built an interactive Power BI dashboard with dynamic filters for ride volume, revenue, customer and driver ratings, and distance.
- Identified insights to improve driver allocation, reduce cancellations and raise customer satisfaction.

Blinkit Price Analytics Engine | Analytics, Visualization | [View Project](#)

- Analyzed pricing, sales volume and customer ratings across product categories to assess pricing tiers and revenue impact.
- Identified price elasticity patterns, outlet size performance and item visibility metrics to find revenue optimization opportunities.
- Visualized KPIs to benchmark pricing competitiveness across quick-commerce hubs.

AgTech Multi-Source Data Lakehouse & Dynamic Pricing Engine | Python, Airflow, dbt, PostgreSQL | [View Project](#)

- Architected an end-to-end data lakehouse for commodity price (Data.gov.in) and weather (OpenWeatherMap) data using Apache Airflow, MinIO and PostgreSQL.
- Implemented dbt transformations, fuzzy-matching master data management, Prophet price forecasting and a dynamic net profit engine.
- Delivered a Streamlit dashboard and a Telegram bot for real-time alerts.

EDUCATION

- **Master of Computer Applications (M.C.A.)**, Indira Gandhi National Open University, Delhi | Sep 2025 – Jun 2027 (Pursuing)
- **Bachelor of Computer Applications (B.C.A.)**, Maharshi Dayanand University, Rohtak | Jul 2022 – Jun 2025

CERTIFICATIONS

- Introduction to Data Science, Cisco (2026) | [View Certificate](#)
- Introduction to Data Analysis Using Microsoft Excel, Coursera (2026) | [View Certificate](#)
- TechSprint Hackathon, GDG on Campus, MSCW (2026) | [View Certificate](#)
